Sir:

Pursuant to 37 C.F.R. 1.133(b), the Applicants make of record the interview conducted in the above-identified application. The interview was conducted with Examiner Kang on April 3, 2009, to discuss in detail the distinguishable features between the present invention and the cited prior art. Additionally, possible claim amendments to help further distinguish the present invention from the cited prior art were also discussed.

A final version of proposed claim amendments was submitted for the Examiner's approval on April 23, 2009, and approved by the Examiner on April 27, 2009.

Although the Examiner issued a final Office Action dated on April 15, 2009, it was agreed that the Examiner would enter the proposed claim amendments via an Examiner's Amendment such that no formal response would be required to the final Office Action dated April 15, 2009.

The Examiner also indicated that a Notice of Allowance would be mailed shortly in connection with the present application.

If there are any other issues remaining in the application that must be resolved prior to issuance of the present application, the Examiner is respectfully request to contact the undersigned by telephoned in order to resolve such issues.
